Dear PSC,

I just enjoyed my first Uber experience from Myrtle Beach International Airport to my home in Pawleys Island, SC. The driver was wonderful. The car was high quality, and the fare was 33% less than the same trip back with a regulated taxi company. While I appreciate defending business, free enterprise always is the best option in the long term. Cease and Desist should be talking about government involved in regulation, not stopping a 21st Century business from improving the customer experience.

Uber provides jobs and affordable rides. It is a great service that does much more good to South Carolina and its economy than harm. Taxis in Columbia, SC are unreliable and overpriced. This seriously is a mistake by South Carolina. I urge you to take into consideration ordinary citizens who have come to depend on the affordability and reliability of Uber.

Sincerely,

George Schaff

It's crazy, that one cab company in my area controls when they pick one up and how they over charge people 50 dollars for a 7 mile ride, uber is the best thing to hit SC, and it takes a lot of drunks off the rd

As a Uber customer and resident of South Carolina I feel that the PSC should come up with a way to approve and authorize Uber to operate as they do in other states. I enjoy the service and convenience of Uber and hope that a common ground can be found in order for them to resume service.

Thank you  
Neil Johnson

My company and I have used Uber before in Greenville, SC and in many cities across the US with no challenges. Unlike taxis, we know exactly who we are getting, what car, and the name of the driver, not to mention the amount before we ever enter the vehicle. There have been many cities that I have taken taxicabs to only find out that went round about Florida to get to Maine, when I was picked up in North Carolina.

My company and I fully support Uber and would like to see it reinstated in South Carolina.

Thanks,

Doug Ferguson, IIDA  
President
